

Choosing Blinds in Maidstone or Ashford in Kent

Who offers the right service in Maidstone / Ashford areas of Kent when it comes to choosing a blind supplier.

Having worked in the blinds industry please allow me to offer some pointers to help you in your choice.

Mass produced blinds are easily available but not the best option for most people. I have known several people try to save a couple of pounds by buying these and then making a mess of trimming them or fitting them. You don't have the same choice of materials or fabrics either.

Always buy blinds from a supplier who offers no obligation quotations in your own home. I recommend this because you get to see a huge range of samples right next to your own decor. You can't do this in a shop. Unless you are experienced at measuring in a professional capacity I would also be very wary of supplying your own measurements. It is easy for a mistake to happen, and with your measurements the fault will always lie with you.

A company I recommend is Homestyle Blinds of Ashford, Kent. They also cover Shepway, Dover, Maidstone and Folkestone. With the majority of their business coming from customer recommendations and repeat purchases.

John from Homestyle Blinds will offer a complete service to help you have the absolute best option you can have. Rather than have just one sample book as most suppliers do John tries to carry several books to give you a complete choice, and this really makes a difference.
